

Three Treatments In-One!

Combination Water Softener and Whole House Water Filtration System.

Ideal for city & community water!

Removes:

- Chlorine taste and odors
- Harmful chemicals (VOCs and more!)
- Water hardness

Get safe, filtered, soft water from every water faucet in your home!

How it works!

First, water flows downward, through the Catalytic activated carbon and KDF to remove Chlorine taste and odors, along with potentially harmful chemicals.

Next, water hardness is removed by the premium grade softener resin so you enjoy the many benefits of soft water!

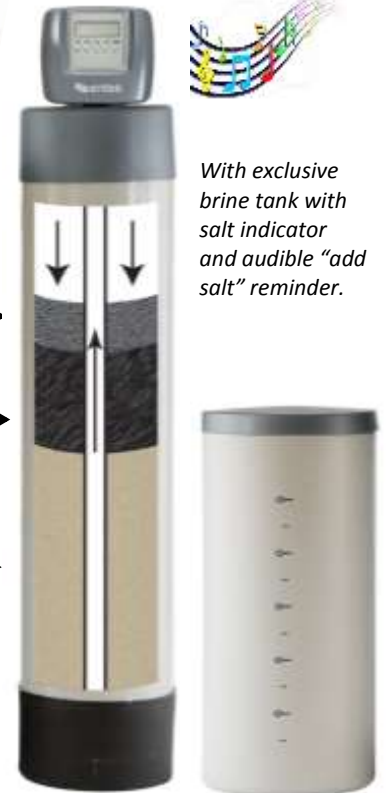

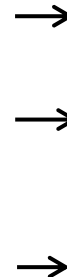

With exclusive brine tank with salt indicator and audible "add salt" reminder.

KDF media to prevent carbon bed from fouling & remove heavy metals.

Catalytic coconut shell activated carbon.

10% cross-linked premium water softener resin to remove water hardness.

3-IN-1 water conditioner and whole house filter.

Filtered Water!

Soft Water!
